

K. Reena

Bhilai, Chhattisgarh | +91-9589836372 | reenarao1912@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

A recent Computer Science graduate (CGPA: 8.09/10) with hands-on experience building backend systems, RESTful APIs, and ETL pipelines in Python. Proficient in FastAPI, PostgreSQL, and OOP design patterns. Active competitive programmer with 190+ problems solved on LeetCode. Shipped a multi-module Python CLI tool with GitHub Actions CI/CD and an end-to-end RAG pipeline. Secured 2nd place at Hack for Impact 2024 (50+ teams). Targeting Software Engineering and Python Developer roles to deliver scalable, enterprise-grade solutions.

COMPETITIVE PROGRAMMING

LeetCode: reenarao — 200+ problems solved across Arrays, Stack, Linked List

TECHNICAL SKILLS

Programming Languages: Python, SQL

Backend & API Development: FastAPI, REST APIs, GraphQL, JWT Authentication, bcrypt, Pydantic

Databases: PostgreSQL, Supabase, ChromaDB

Software Engineering: Object-Oriented Programming (OOP), Design Patterns, Data Structures & Algorithms, SDLC, pytest

AI / ML & Data: Statistics, Linear Algebra, Calculus, Linear Regression, Classification, Supervised/Unsupervised Learning, RAG Pipeline, LangChain, HuggingFace Transformers, Embeddings, Model Evaluation, scikit-learn, Jupyter Notebooks

AWS & Cloud: AWS Cloud Essentials, Render, GitHub Actions

DevOps & Tools: Git, GitHub, GitHub Actions (CI/CD), Postman, Render

EXPERIENCE

Data Analytics Intern - VOIS for Tech Program | GitHub

Sept 2025 – Oct 2025

- Cleaned and preprocessed 2 real-world datasets using Python and pandas, handled missing values, removed duplicates, corrected label inconsistencies, and applied feature extraction to ensure analysis-ready data quality.
- Performed exploratory data analysis (EDA) and built 10+ visualizations including bar charts, line plots, and regression plots using Matplotlib, Seaborn, and Plotly to surface trends and distribution patterns.
- Conducted correlation and regression analysis to quantify relationships between key variables, translated findings into 5 actionable business recommendations covering content strategy and competitive positioning.

PROJECTS

LeetCode Problem Recommender | Python, FastAPI, GraphQL, Streamlit, Plotly, Pydantic, pytest

GitHub

- Architected a **two-tier caching system**, ingesting **3,000+ LeetCode problems** via GraphQL to enable low-latency personalized recommendations.
- Implemented a **tag-based weakness scoring engine**, surfacing personalized results through a **4-endpoint RESTful FastAPI** service with Pydantic data validation.
- Developed an interactive Streamlit dashboard with **3 Plotly visualizations**.

Company based RAG Chatbot | Python, FastAPI, ChromaDB, HuggingFace, Groq, RAG, LangChain

Demo

- Deployed an end-to-end **Retrieval-Augmented Generation (RAG)** pipeline using **FastAPI, LangChain, ChromaDB, and Groq** LLM inference, significantly reducing hallucinations on domain-specific queries.
- Scraped **5+ web pages** using **Playwright**, generating **300+ semantically indexed chunks** for efficient vector retrieval.

EDUCATION

Rungta College of Engineering and Technology

B.Tech in Computer Science and Engineering; CGPA: 8.09 / 10

Kohka, Chhattisgarh

Aug 2022 – May 2026

Sree Narayana Guru Vidya Bhavan

Class 12th: 78.8% | Class 10th: 89%

Bhilai, Chhattisgarh

2020 – 2022

AWARDS & ACHIEVEMENTS

Hack for Impact Hackathon

2nd Place Winner

2024

- Ranked 2nd among **50+ competing teams** for a Startup-Investor Matchmaking Platform; award presented by **Aman Gupta (CEO, BoAt)**.

CERTIFICATIONS & ACTIVITY

Certifications: Oracle Cloud Infrastructure 2025 AI Foundations Associate (1Z0-1122-25), AWS Cloud Essentials, GitHub Foundations, Postman API Fundamentals, Generative AI Basics

Activities — Rungta Business Incubator, Member: Actively participated in **Startup Pitch events**, evaluating business models and providing structured feedback to peer founders. Gained hands-on exposure to venture capital processes, startup ecosystems, and incubator operations.
